Australia Singapore Cable

CEO Geoff Horth

Australia - Singapore Cable (ASC) - Recap

Strategic long term investment to deliver Vocus sustainable competitive advantage and capex avoidance in international data transit

- 4,600km submarine cable system linking Australia to Singapore, Indonesia and Christmas Island
- On track to be ready for service 1QFY19
- An agreement has been reached with the Nextgen vendors to reduce the deferred consideration payable on the project from US\$20m to US\$8m¹
- The investment profile associated with the contract is now expected to be:
 - 1HFY18 US\$32m
 - 2HFY18 US\$10m²
 - 1HFY19 US\$110m

¹ Payable on the occurrence of certain payment triggers, and by no later than 30 September 2018

² Additional \$4m associated with augmenting Vocus national network

ASC - On track for 1QFY19 go-live

Design

Leading edge, future-proof infrastructure

- 4 fibre pairs: **40Tb/s** at RFS
- Optimised physical protection to ensure **service resiliency** and **protect our investment**

Plan

Plans, contracts and permits in place

- Surveys, key permits and supply contracts **all in place**
- Experienced sub-sea project team engaged

Build

Cable build and site-work on track

- Cable and repeaters manufactured – **completion early Nov 2017**
- Landing station builds underway and on track
- Terrestrial civil works in Singapore & Perth well progressed - **completion end of 2017**

Deploy

Cable laying ships 'in the water'

- Main cable lay expected to be completed **Q3 FY18**

Commission

On track for 1QFY19

- Project timeline as previously communicated
- **Revenue impact from Q1 FY19 onwards**

ASC – Commercial status

Massive market potential

- **Exponential growth in demand** for bandwidth between Australia & Asia forecast to exceed 50Tb/s by 2029¹
- **Underserved route** – provides Australia with best route to Asia and Europe and completes the US/Asia alternative redundancy path
- **Effectively replaces aging unreliable existing systems**
- **First mover advantage** – at least 9 months ahead of the competing project in a capacity constrained market

Primary focus on cornerstone customers

- **Dedicated Head of ASC sales** in place
- **20+ key live prospects** with major carriers and global OTTs
- 8 opportunities in advanced stage representing in excess of 3Tb/s capacity
- Potential to avoid estimated **\$110m cumulative international IRU spend to FY22** through strategic swap arrangements

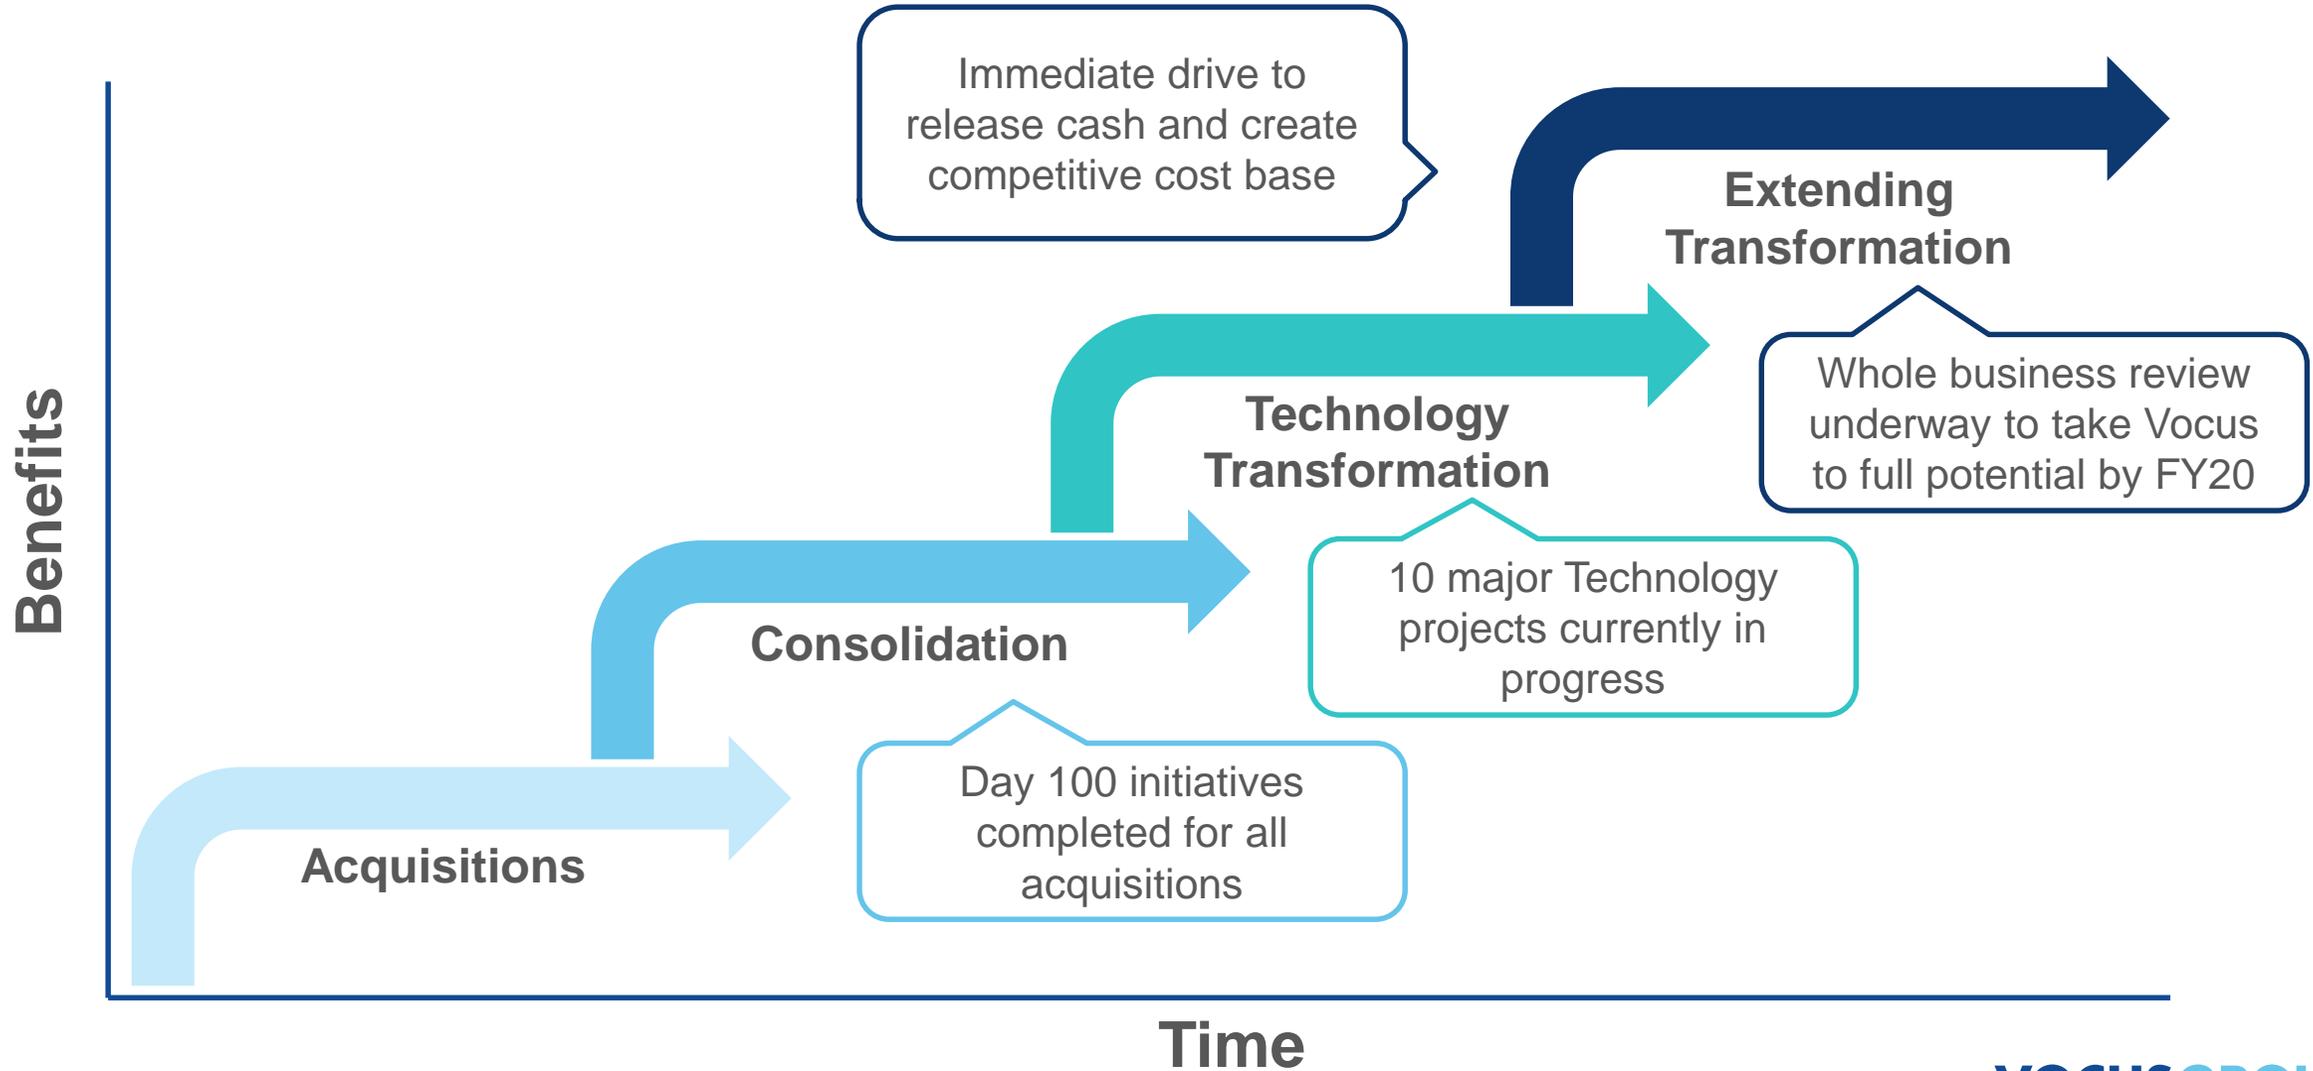

Extending the Transformation Program

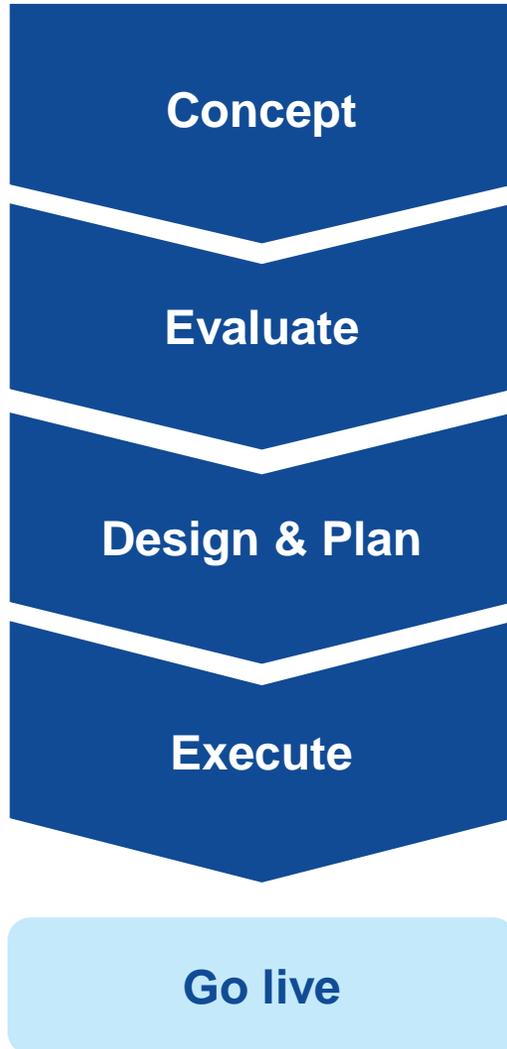

CEO - Geoff Horth

Vocus is going through a staged transformation journey

Technology transformation progress

- **9 out of 10 projects** have now passed the Concept gate
On-going concept development for Analytics project
- **7 out of 10 projects** have now passed the Evaluate gate
E&W Contract-to-Cash and OSS consolidation business cases on-going
- These 7 projects have all now passed into execution
- **Projects in execution delivering critical business outcomes**, incl. iPrimus re-launch; MPLS and IP Voice capabilities; contact centre efficiency; BSS, ERP and NOC consolidation
- Benefits included in FY18 guidance on track to be delivered

Technology transformation case study - Contact Centre efficiency

Initial Situation

- Inconsistent and inefficient customer service experience – Sep 2016:
 - ~15% of enquiries required multiple customer calls
 - ~40% of enquiries had to be transferred one or more times to be resolved
 - Average handle time c. 10 minutes for customer service and tech support
 - Agents were using multiple systems and tools to manage and store customer information
- Number of agents, calls and cost have been rising

Phase 1

- iPrimus Salesforce CRM completed and released to 300 agents July 2017
- Genesys build for iPrimus nearing completion

Phase 2

- Dodo feasibility study in progress
- Oct 2018 – Salesforce/ Genesys launch across Dodo telco, power and gas

Expected EBITDA benefits

- \$5.1m+pa by FY20 from iPrimus, Genesys and Salesforce
- \$5.6m+pa by FY20 from Dodo, Genesys and Salesforce
- **Value to customer:** Improved experience from faster resolution of issues and reduced handling times
- **Value to team members:** simplified processes through single CRM view – smart routing; reduced call volumes; increased retention

Rapid transformation commenced – 3 key themes

OPTIMISE SPEND

- Drive an 'owner's mindset' for cost out program
- Optimise external spend
- Rationalise property portfolio

RADICALLY SIMPLIFY

- Rationalise offers and products
- Retire duplicate/ obsolete IT platforms
- Implement lean operating model
- Target 'zero-touch' customer episodes; automate everywhere

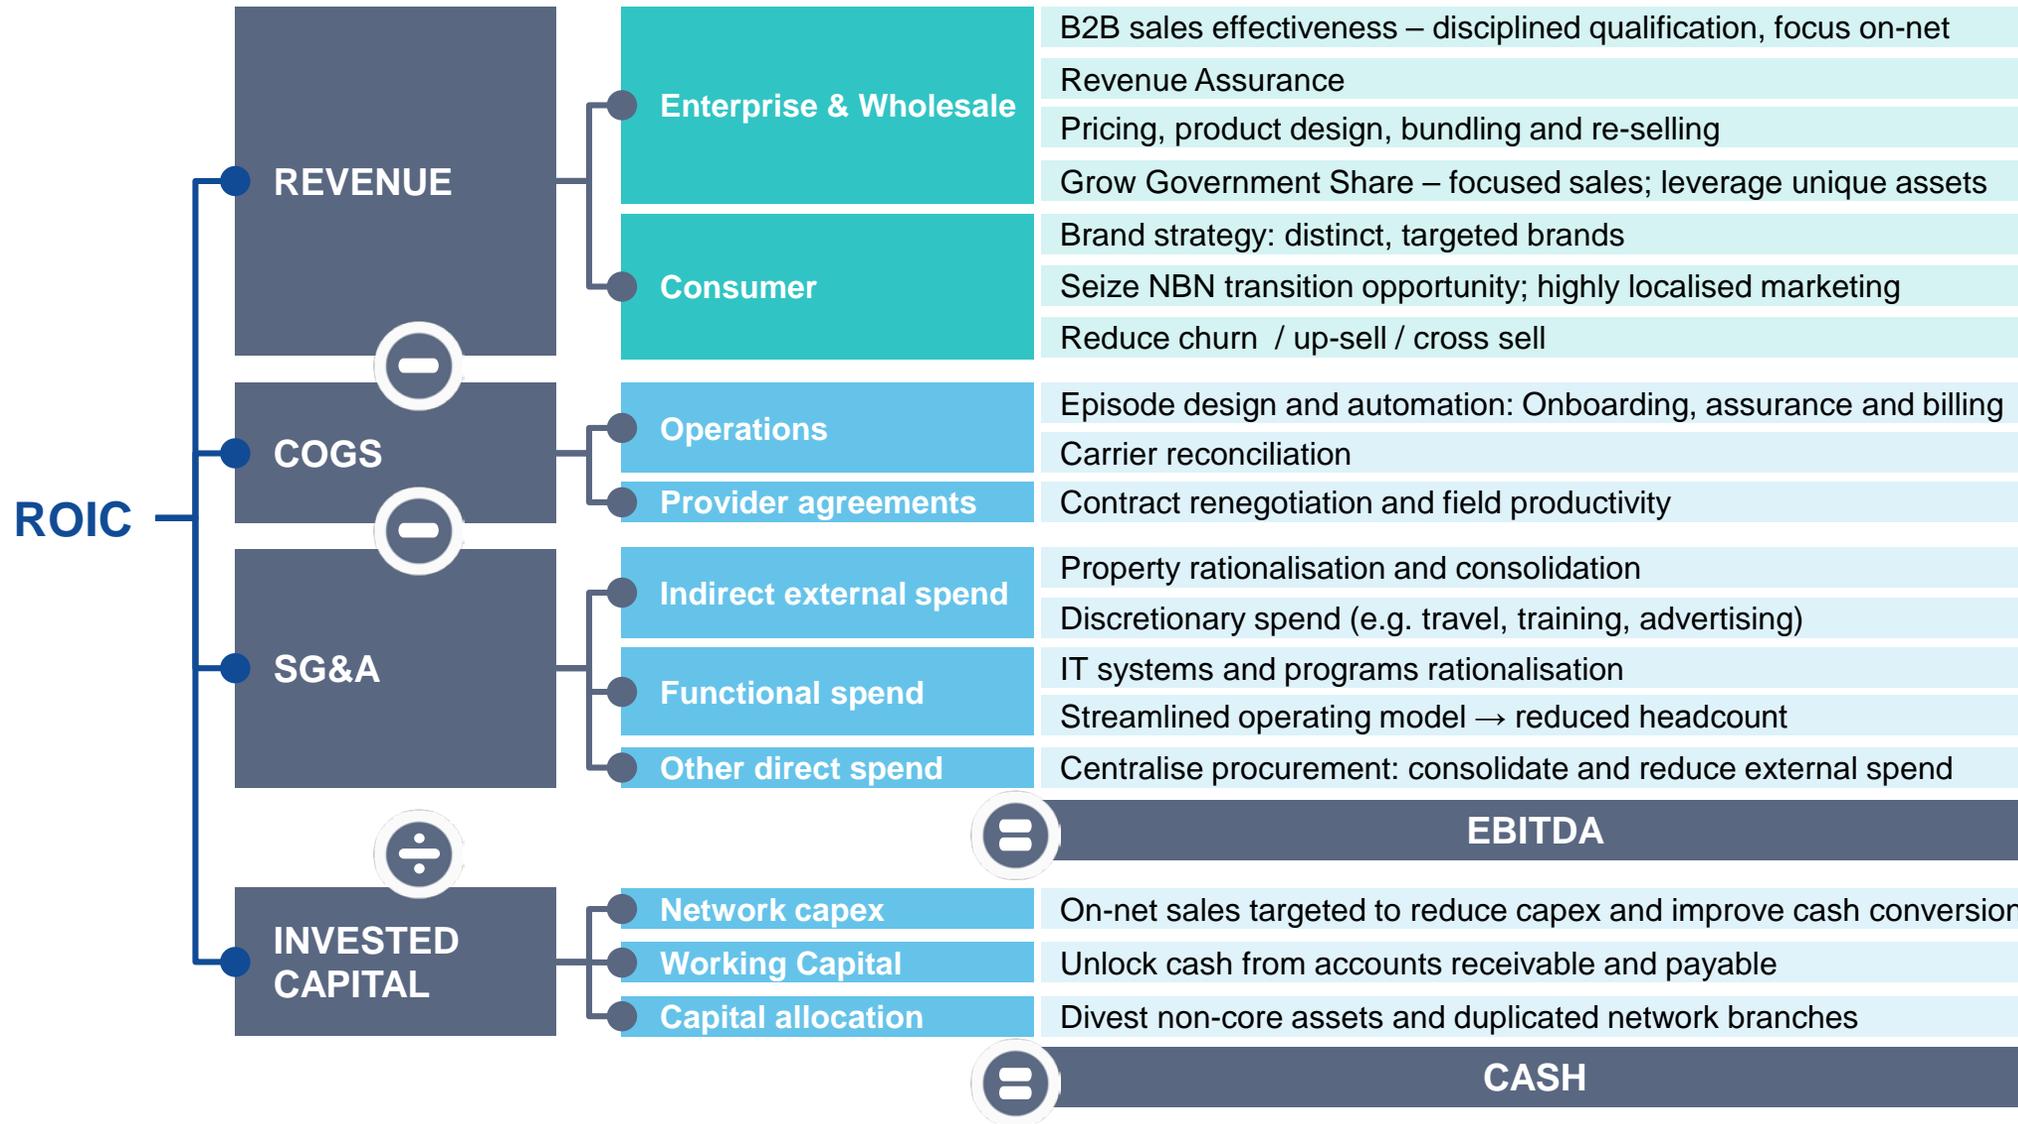

DRIVE PROFITABLE AND SUSTAINABLE GROWTH

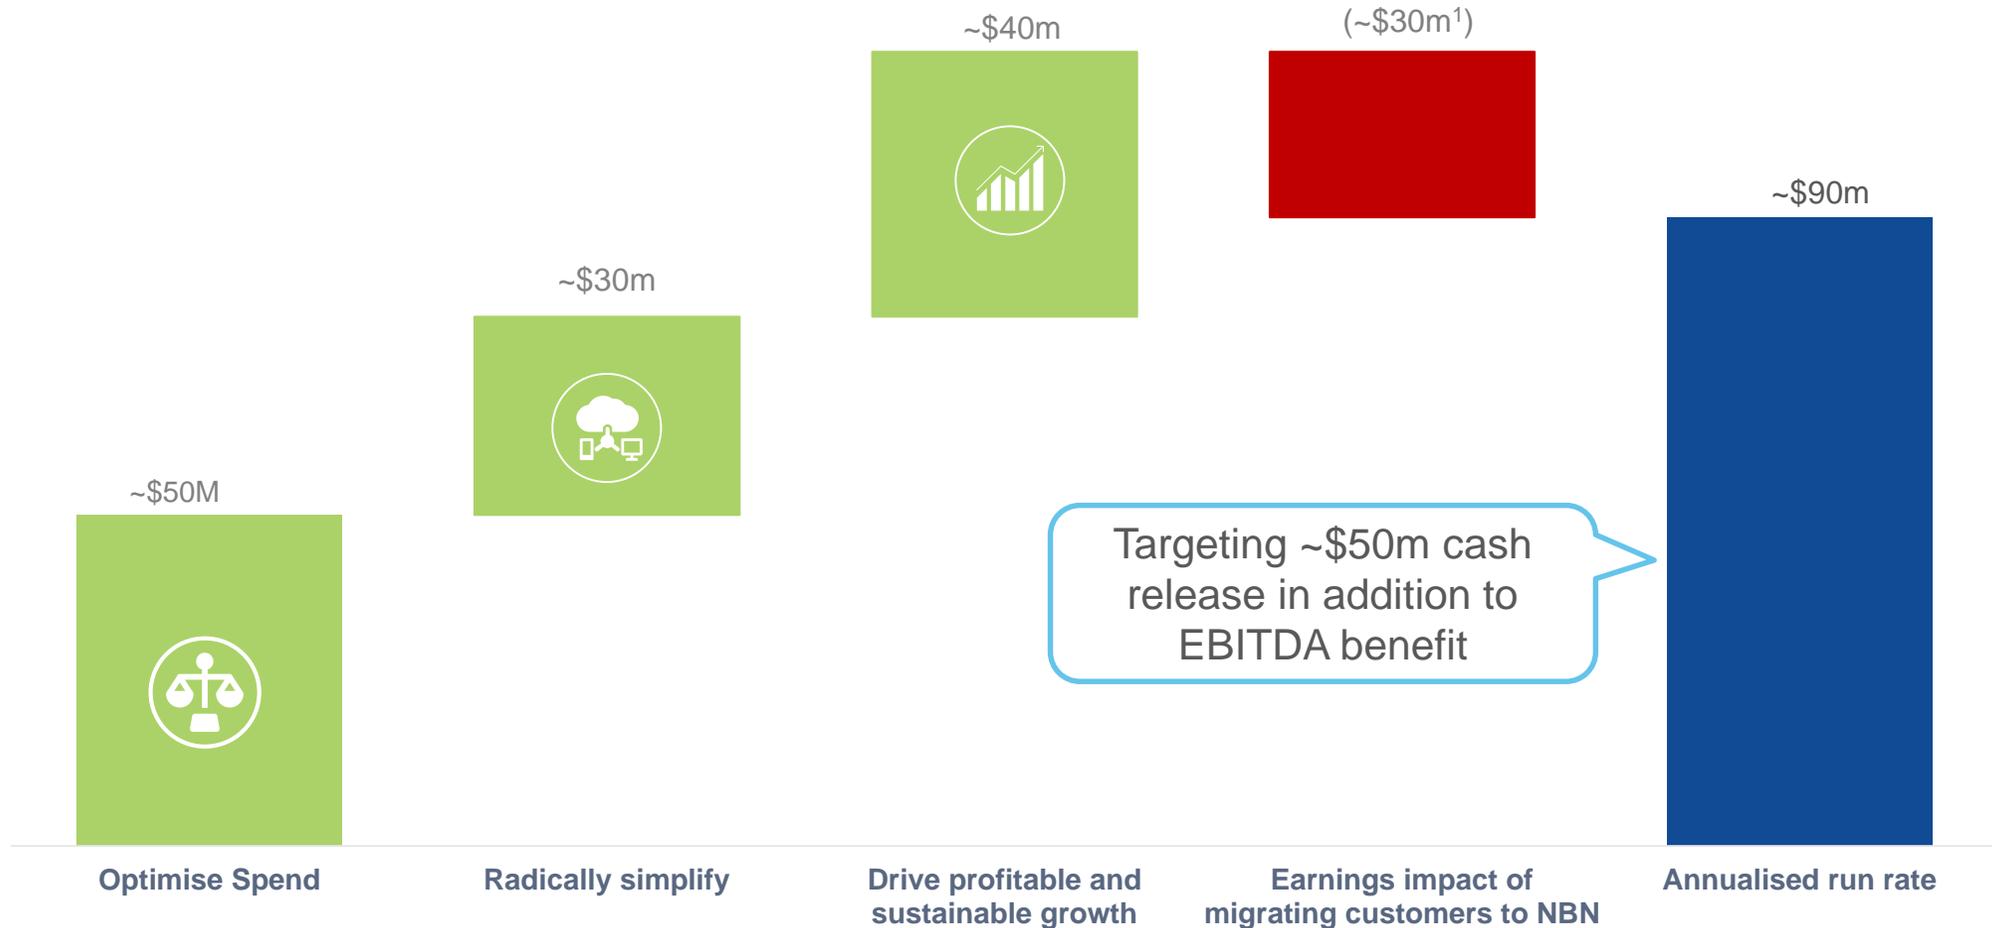

- Invest in frontline sales and service capabilities
- Focus on cross-sell, up-sell and churn management
- Leverage existing on-net footprint
- Seize NBN transition opportunity

Concurrently pursue working capital release

Key levers to deliver benefits over 3 years

~\$90m of net run rate EBITDA benefit expected by end of FY20

1 Assumptions on the impact of consumer margin loss based on forecast NBN subscriber growth. Assumes no change to current CVC pricing structure

Finance Update

CFO – Mark Wratten

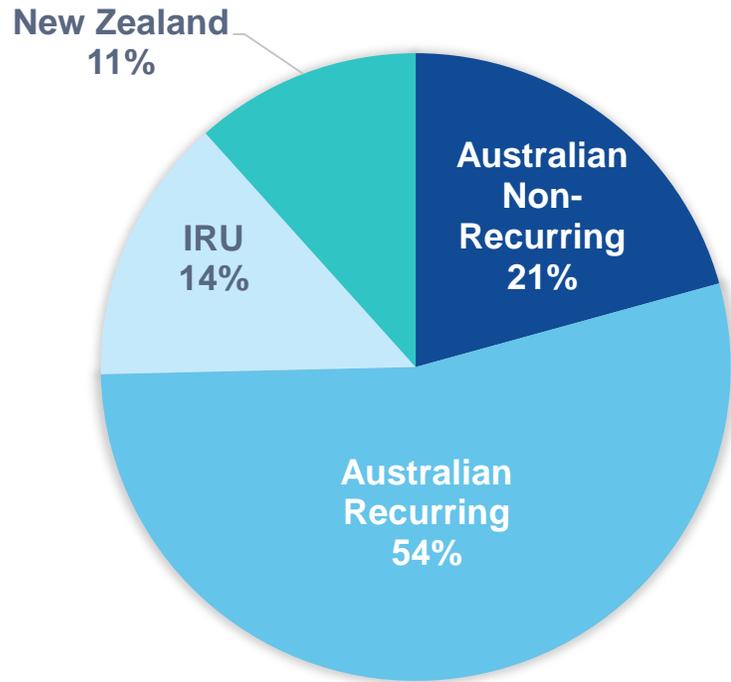

Finance Update – Asset Sale Review

- On 23rd August Vocus announced a review of non-core Australian assets for potential divestment options
- Since announcement of the assets review, further inbound approaches have been received on assets across the entire Vocus portfolio
- The Board has now determined that the Vocus New Zealand (VNZ) business will be prepared for sale
 - Finalising appointment of advisors
 - Targeting sale completion by end of FY18
- The Board has also progressed its review of the non-core Australian assets:
 - Advisors appointed to the sale of the Australian Data Centre assets
 - Other non-core Australian assets will continue to be evaluated with regard to potential divestment or closure
- Net cash proceeds from proposed divestments will materially reduce Group debt levels, leverage ratio and provide strategic optionality

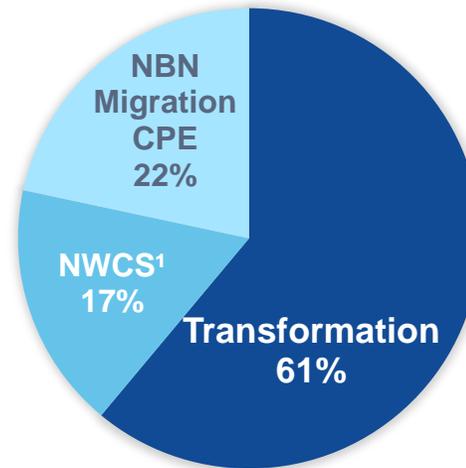

Finance Update – Capex Deep Dive

FY18 FORECAST CAPITAL EXPENDITURE MIX

FY18 CAPEX GUIDANCE \$190-210M EXCL ASC

AUSTRALIAN NON-RECURRING CAPEX BREAKDOWN

- As previously noted ASC capex in FY18 is now US\$42m
- Assuming Vocus successfully migrates all existing copper broadband subscribers to the NBN, CPE migration capex is expected to be approximately \$22.7m over the period between FY18 and FY20²
- NWCS spend relates to the connection of the system to the INPEX Ichthys LNG Project and Shell’s Prelude FLNG facility. This spend is offset by cash receipts of \$5m in FY18.

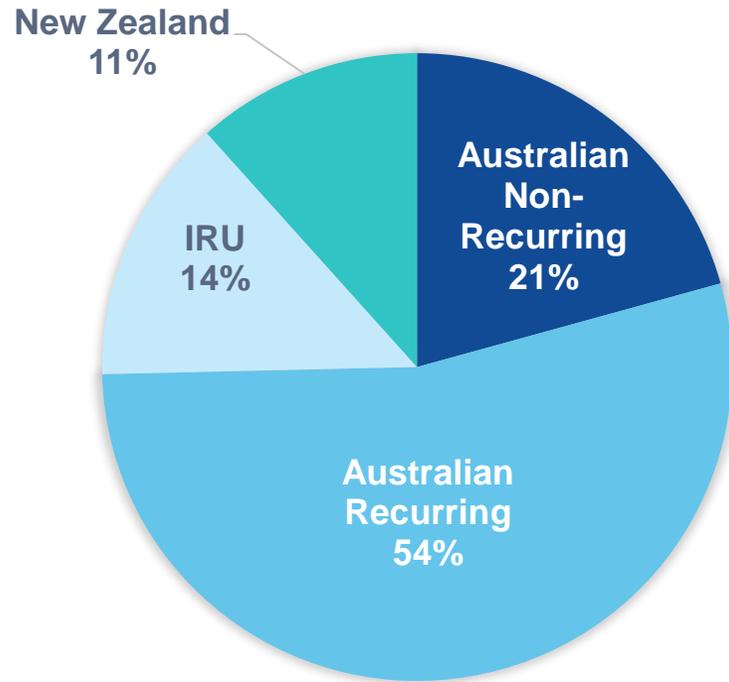

1. NWCS – North West Cable System

2. This assumes that all subscribers migrated require a modem. Is inclusive of FY18 forecast spend

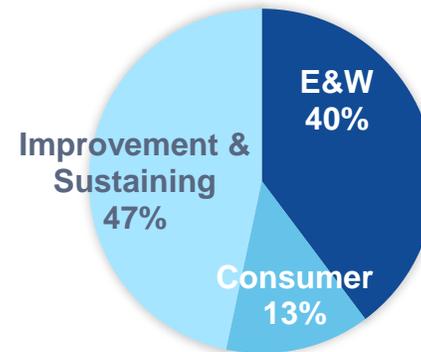

Finance Update – Capex Deep Dive

FY18 FORECAST CAPITAL EXPENDITURE MIX

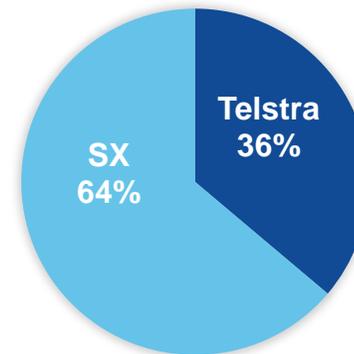

FY18 CAPEX GUIDANCE \$190-210M EXCL ASC

FY18 AUSTRALIAN RECURRING CAPEX BREAKDOWN

FY18 BREAKDOWN OF IRU SPEND

- There is the potential to reduce the SX IRU spend through swap arrangements on ASC
- Enterprise & Wholesale division continue to focus on reducing capital expenditure associated with new connections focusing market activity on lit or near-net buildings
- Consumer recurring capex is primarily related to new NBN customer acquisition
